MERCATOR INTERNATIONAL OPPORTUNITY FUND SUMMARY

INVESTMENT OBJECTIVE:

The Mercator International Opportunity Fund (the “Fund”) seeks long-term growth of capital.

FEES AND EXPENSES OF THE FUND:

The Fees and Expenses table describes the fees and expenses that you may pay if you buy and hold shares of the Fund. More information about management fees, fee waivers and other expenses is available in the section titled “Management” starting on page 11 of this prospectus.

Shareholder Fees (fees paid directly from your investment)	Institutional Class	Class A
Maximum Sales Charge (Load) Imposed on Purchases (as a % of offering price)	None	None
Maximum Deferred Sales Charge (Load) (as a % of original purchase price)	None	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends and other Distributions	None	None
Redemption Fee (as a % of amount redeemed, if sold within 60 days)	None	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	Institutional Class	Class A
Management Fees	0.84%	0.84%
Distribution and/or Service (12b-1) Fees	None	0.25%
Other Expenses	1.32%	1.32%
Acquired Fund Fees and Expenses ⁽¹⁾	0.01%	0.01%
Total Annual Fund Operating Expenses	2.17%	2.42%
Fee Waiver and/or Expense Reimbursement ⁽²⁾	(0.59)%	(0.68)%
Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement	1.58%	1.74%

(1) Acquired Fund Fees and Expenses are the indirect costs of investing in other investment companies.

(2) The Fund’s adviser has contractually agreed to reduce its fees and to reimburse expenses, at least through April 30, 2022, to ensure that total annual Fund operating expenses after fee waiver and reimbursement (exclusive of any front-end or contingent deferred loads, 12b-1 fees, taxes, leverage interest, borrowing interest, brokerage commissions, expenses incurred in connection with any merger or reorganization, dividend expense on securities sold short, acquired (underlying) fund fees and expenses or extraordinary expenses such as litigation) will not exceed 1.40% and 1.55% of the average daily net assets attributable to the Institutional Class and Class A shares, respectively. These fee waivers and expense reimbursements are subject to possible recoupment from the Fund within three years of the date on which the waiver or reimbursement occurs, if such recoupment can be achieved within the lesser of the foregoing expense limits or the expense limits in place at the time of recoupment. This agreement may be terminated only by the Trust’s Board of Trustees (the “Board”), on 60 days’ written notice to the Fund’s adviser.

Example: This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same as those reflected in the above fee table. The Example assumes the impact of the fee waiver in 1 Year example. Although your actual costs may be higher or lower, based upon these assumptions your costs would be:

Class	1 Year	3 Years	5 Years	10 Years
Institutional	\$161	\$622	\$1,110	\$2,457
A	\$177	\$690	\$1,229	\$2,705

Portfolio Turnover: The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual operating expenses or in the Example, affect the Fund's performance. During the most recent fiscal year, the portfolio turnover rate was 51.26% of the average value of the Fund's portfolio.

PRINCIPAL INVESTMENT STRATEGY:

The Fund invests significantly in common stocks of companies domiciled in developed countries outside of the United States. The Fund seeks to invest in stocks of companies that it believes have the potential for growth. The Fund will invest at least 40% of its assets in securities of companies domiciled outside the United States, which the Fund defines as securities listed primarily on exchanges outside the United States and the notional value of any foreign currency futures contracts or forward currency contracts. The Fund may enter into foreign currency futures contracts and forward currency contracts to hedge against losses or seek returns. The Fund relies on the professional judgment of its portfolio manager to make decisions about the Fund's portfolio investments. The basic investment philosophy of the investment adviser is to analyze information on securities in the Fund's investment universe to determine their long-term attractiveness. The adviser believes that an important way to accomplish this is through fundamental analysis, which includes analysis of a company's assets, liabilities and earning, review of a company's public filings, and may also include meeting with company executives and employees, suppliers, customers and competitors. The Fund may invest in securities of any market capitalization. Because the Fund is seeking long term appreciation, these securities may be held by the Fund for a period of two years or more. Securities may be sold when the adviser believes that they no longer represent relatively attractive investment opportunities.

PRINCIPAL INVESTMENT RISKS:

As with all mutual funds, there is the risk that you could lose money through your investment in the Fund. The Fund is not intended to be a complete investment program. Many factors affect the Fund's net asset value ("NAV") and performance. The Fund is subject to the risks associated with the global stock and bond markets, any of which could cause an investment to lose money.

Foreign Investment Risk. Foreign investments may be riskier than U.S. investments for many reasons, such as changes in currency exchange rates and unstable political, social and economic conditions.

Adverse Market Conditions Risk. The performance of the Fund will suffer during conditions that are adverse to its investment goals, such as during bear markets.

Derivatives Risk. The Fund uses investment techniques, including investments in futures contracts and forward contracts, which may be considered aggressive. Investments in such derivatives are subject to market risks that may cause their prices to fluctuate over time and may increase the volatility of the Fund. The use of derivatives may expose the Fund to additional risks that it would not be subject to if it invested directly in the securities underlying those derivatives, such as counterparty risk and the risk that the derivatives may become illiquid. The use of derivatives may result in larger losses or smaller gains than otherwise would be the case. In addition, the Fund's investments in derivatives are currently subject to the following risks:

- **Futures and Forward Contracts.** There may be an imperfect correlation between the changes in market value of the securities held by the Fund and the prices of futures contracts. There may not be a liquid secondary market for the futures contracts. Forward currency transactions include the risks associated with fluctuations in currency.
- **Hedging Risk.** If the Fund uses a hedging instrument at the wrong time or judges the market conditions incorrectly, the hedge might be unsuccessful, reduce the Fund's investment return, or create a loss.

Issuer Risk. The value of a security may decline for a number of reasons which directly relate to the issuer, such as management performance, financial leverage and reduced demand for the issuer's goods or services, as well as the historical and prospective earnings of the issuer and the value of its assets.

Large Capitalization Stock Risk. Large-capitalization companies may be less able than smaller capitalization companies to adapt to changing market conditions. Large-capitalization companies may be more mature and subject to more limited growth potential compared with smaller capitalization companies. During different market cycles, the performance of large capitalization companies has trailed the overall performance of the broader securities markets.

Market and Geopolitical Risk. The increasing interconnectivity between global economies and financial markets increases the likelihood that events or conditions in one region or financial market may adversely impact issuers in a different country, region or financial market. Securities in the Fund's portfolio may underperform due to inflation (or expectations for inflation), interest rates, global demand for particular products or resources, natural disasters, pandemics, epidemics, terrorism, regulatory events and governmental or quasi-governmental actions. The occurrence of global events similar to those in recent years may result in market volatility and may have long term effects on both the U.S. and global financial markets. The current novel coronavirus (COVID-19) global pandemic and the aggressive responses taken by many governments, including closing borders, restricting international and domestic travel, and the imposition of prolonged quarantines or similar restrictions, as well as the forced or voluntary closure of, or operational changes to, many retail and other businesses, has had negative impacts, and in many cases severe negative impacts, on markets worldwide. It is not known how long such impacts, or any future impacts of other significant events described above, will or would last, but there could be a prolonged period of global economic slowdown, which may impact your Fund investment.

Small and Medium Capitalization Stock Risk. The earnings and prospects of small and medium sized companies are more volatile than larger companies and may experience higher failure rates than larger companies. Small and medium sized companies normally have a lower trading volume than larger companies, which may tend to make their market price fall more disproportionately than larger companies in response to selling pressures and may have limited markets, product lines, or financial resources and lack management experience.

PERFORMANCE:

The bar chart and performance table below show the variability of the Fund’s returns, which is some indication of the risks of investing in the Fund. The bar chart shows performance of the Fund’s Institutional Class shares for each full calendar year since the Fund’s inception. Returns for Class A shares, which are not presented, will vary from the returns of Institutional Class shares. The performance table compares the performance of the Fund’s Institutional Class shares over time to the performance of a broad-based securities market index. You should be aware that the Fund’s past performance (before and after) taxes may not be an indication of how the Fund will perform in the future. Updated performance information will be available at no cost by visiting mercatormutualfunds.com or by calling 1-800-869-1679.

**Performance Bar Chart
Calendar Year Ended December 31**

Best Quarter:	6/30/2020	35.89%
Worst Quarter:	3/31/2020	-23.16%

The Fund's Institutional Class year-to-date return as of the most recent fiscal quarter, which ended March 31, 2021 was 8.84%.

Performance Table
Average Annualized Total Returns
(For periods ended December 31, 2020)

	<i>One Year</i>	<i>Since Inception of the Fund (04-02-18)</i>
Institutional Class Return before taxes	55.77%	21.16%
Institutional Class Return after taxes on distributions	54.07%	20.68%
Institutional Class Return after taxes on distributions and sale of fund shares	33.78%	16.64%
Class A Return before taxes	55.50%	50.92%
MSCI EAFE (Morgan Stanley Capital International Europe Australia Far East) Index	8.39%	5.86%

After-tax returns are calculated using the highest historical individual federal marginal income tax rate and do not reflect the impact of state and local taxes. Actual after-tax returns depend on a shareholder's tax situation and may differ from those shown. The after-tax returns are not relevant if you hold your Fund shares in tax-deferred arrangements, such as 401(k) plans or individual retirement accounts ("IRA").

Morgan Stanley EAFE (Morgan Stanley Capital International Europe Australia Far East) Index measures the performance of large and mid-cap securities across 21 developed markets, including countries in Europe, Australasia and the Far East. The index is commonly referred to as the EAFE. Securities from the United States and Canada are excluded from the MS EAFE benchmark index. The MS EAFE benchmark index is used for comparison purposes only, and is not meant to be indicative of the Fund's asset composition, performance, or volatility. The performance of the Morgan Stanley EAFE Index is compiled and presented with all dividends reinvested and does not reflect deductions for fees or expenses. Investors cannot invest directly in an index.

INVESTMENT ADVISER:

Mercator Investment Management, LLC ("Mercator").

PORTFOLIO MANAGER:

Herve van Caloen has served the Fund as portfolio manager since the Fund commenced operations in April 2018.

PURCHASE AND SALE OF FUND SHARES:

You may purchase and redeem shares of the Fund on any day that the New York Stock Exchange is open for trading. You may redeem shares by written request, telephone or through a financial intermediary. The minimum initial and subsequent investment for Institutional Class shares is \$1,000 and \$100, respectively, for all accounts. The minimum initial and subsequent investment for Class A shares is \$500 and \$100, respectively, for all accounts. However, the Fund or the adviser may waive any minimum investment requirement at its discretion.

TAX INFORMATION:

Dividends and capital gain distributions you receive from the Fund, whether you reinvest your distributions in additional Fund shares or receive them in cash, are taxable to you at either ordinary income or capital gains tax rates unless you are investing through a tax-deferred plan such as an IRA or 401(k) plan. However, such distributions may be taxed later upon withdrawal of monies from the plan.

PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES:

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the adviser may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

ADDITIONAL INFORMATION ABOUT THE FUND'S PRINCIPAL INVESTMENT STRATEGIES AND RELATED RISKS**INVESTMENT OBJECTIVES:**

The Fund's investment objective is long-term growth of capital.

The Fund's investment objective may be changed without shareholder approval by the Trust's Board of Trustees (the "Board") upon 60 days' written notice to shareholders. The Fund has adopted a policy to invest at least 40% of its assets in securities of companies outside the United States. The Fund may change its 40% policy upon 60 days' written notice to its shareholders.

PRINCIPAL INVESTMENT STRATEGIES:

The Fund invests significantly in common stocks of companies domiciled in developed countries outside of the United States. The Fund seeks to invest in stocks of companies that it believes have the potential for growth. The Fund will invest at least 40% of its assets in securities of companies domiciled outside the United States, which the Fund defines as securities listed primarily on exchanges outside the United States and the notional value of any foreign currency futures contracts or forward currency contracts. The Fund may enter into foreign currency futures contracts and forward currency contracts to hedge against losses or seek returns.

The Fund relies on the professional judgment of its portfolio manager to make decisions about the Fund's portfolio investments. The basic investment philosophy of the investment adviser is to analyze information on securities in the Fund's investment universe to determine their long term attractiveness. The investment adviser believes that an important way to accomplish this is through fundamental analysis, which includes analysis of a company's assets, liabilities and earning, review of a company's public filings, and may also include meeting with company executives and employees, suppliers, customers and competitors. The Fund may invest in securities of any market capitalization. The Fund will seek out larger, undervalued companies as well as smaller companies with strong growth potential. Since the Fund is looking for long term appreciation, these securities may be held for long periods of time. A holding period of two years or more should be expected when the portfolio manager has a strong conviction in a specific company. Securities may be sold when the investment adviser believes that they no longer represent relatively attractive investment opportunities.

PRINCIPAL INVESTMENT RISKS:

Foreign Investment Risk. Foreign investments may be riskier than U.S. investments for many reasons, including changes in currency exchange rates; unstable political, social and economic conditions; possible security illiquidity; a lack of adequate or accurate company information; differences in the way securities markets operate; less secure foreign banks or securities depositories than those in the U.S.; less standardization of accounting standards and market regulations in certain foreign countries; and varying foreign controls on investments. Because the Fund can make foreign investments, its share price may be more affected by foreign economic and political conditions, taxation policies and accounting and auditing standards than would otherwise be the case.

Adverse Market Conditions Risk. The Fund's performance will suffer during conditions that are adverse to its investment goals, such as during bear markets.

Derivatives Risk. The Fund uses investment techniques, including investments in futures contracts, and forward contracts, which may be considered aggressive. Investments in such derivatives are subject to market risks that may cause their prices to fluctuate over time and may increase the volatility of the Fund. The use of derivatives may expose the Fund to additional risks that it would not be subject to if it invested directly in the securities underlying those derivatives, such as counterparty risk and the risk that the derivatives may become illiquid. The use of derivatives may result in larger losses or smaller gains than otherwise would be the case. In addition, the Fund's investments in derivatives are currently subject to the following risks:

- **Futures and Forward Contracts.** There may be an imperfect correlation between the changes in market value of the securities held by the Fund and the prices of futures contracts. There may not be a liquid secondary market for the futures contracts. Forward currency transactions include the risks associated with fluctuations in currency.
- **Hedging Risk.** If the Fund uses a hedging instrument at the wrong time or judges the market conditions incorrectly, the hedge might be unsuccessful, reduce the Fund's investment return, or create a loss.

Issuer Risk. The value of a security may decline for a number of reasons which directly relate to the issuer, such as management performance, financial leverage and reduced demand for the issuer's goods or services, as well as the historical and prospective earnings of the issuer and the value of its assets.

Large Capitalization Stock Risk. Large-capitalization companies may be less able than smaller capitalization companies to adapt to changing market conditions. Large-capitalization companies may be more mature and subject to more limited growth potential compared with smaller capitalization companies. During different market cycles, the performance of large capitalization companies has trailed the overall performance of the broader securities markets.

Market and Geopolitical Risk. The increasing interconnectivity between global economies and financial markets increases the likelihood that events or conditions in one region or financial market may adversely impact issuers in a different country, region or financial market. Securities in the Fund's portfolio may underperform due to inflation (or expectations for inflation), interest rates, global demand for particular products or resources, natural disasters, pandemics, epidemics, terrorism, regulatory events and governmental or quasi-governmental actions. The occurrence of global events similar to those in recent years, such as terrorist attacks around the world, natural disasters, social and political discord or debt crises and downgrades, among others, may result in market volatility and may have long term effects on both the U.S. and global financial markets. It is difficult to predict when similar events affecting the U.S. or global financial markets may occur, the effects that such events may have and the duration of those effects. Any such event(s) could have a significant adverse impact on the value and risk profile of the Fund's portfolio. The current novel coronavirus (COVID-19) global pandemic and the aggressive responses taken by many governments, including closing borders, restricting international and domestic travel, and the imposition of prolonged quarantines or similar restrictions, as well as the forced or voluntary closure of, or operational changes to, many retail and other businesses, has had negative impacts, and in many cases severe negative impacts, on markets worldwide. It is not known how long such impacts, or any future impacts of other significant events described above, will or would last, but there could be a prolonged period of global economic slowdown, which may impact your Fund investment. Therefore, the Fund could lose money over short periods due to short-term market movements and over longer periods during more prolonged market downturns. During a general market downturn, multiple asset classes may be negatively affected. Changes in market conditions and interest rates can have the same impact on all types of securities and instruments. In times of severe market disruptions you could lose your entire investment.

Small and Medium Capitalization Stock Risk. The stocks of small and medium capitalization companies involve substantial risk. These companies may have limited product lines, markets or financial resources, and they may be dependent on a limited management group. Stocks of these companies may be subject to more abrupt or erratic market movements than those of larger, more established companies or the market averages in general.

TEMPORARY INVESTMENTS:

To respond to adverse market, economic, political or other conditions, each Fund may invest 100% of its total assets, without limitation, in high-quality short-term debt securities and money market instruments. These short-term debt securities and money market instruments include: shares of money market mutual funds, commercial paper, certificates of deposit, bankers' acceptances, U.S. Government securities and repurchase agreements. While the Fund is in a defensive position, the opportunity to achieve its investment objective will be limited. Furthermore, to the extent that the Fund invests in money market mutual funds for cash positions, there will be some duplication of expenses because the Fund pays its pro-rata portion of such money market funds' advisory fees and operational fees. The Fund may also invest a substantial portion of its assets in such instruments at any time to maintain liquidity or pending selection of investments in accordance with its policies.

PORTFOLIO HOLDINGS DISCLOSURE:

A description of the Fund's policies regarding the release of portfolio holdings information is available in the Fund's Statement of Additional Information.

CYBERSECURITY:

The computer systems, networks and devices used by the Fund and its service providers to carry out routine business operations employ a variety of protections designed to prevent damage or interruption from computer viruses, network failures, computer and telecommunication failures, infiltration by unauthorized persons and security breaches. Despite the various protections utilized by the Fund and its service providers, systems, networks, or devices potentially can be breached.

The Fund and its shareholders could be negatively impacted as a result of a cybersecurity breach. Cybersecurity breaches can include unauthorized access to systems, networks, or devices; infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. Cybersecurity breaches may cause disruptions and impact the Fund's business operations, potentially resulting in financial losses; interference with the Fund's ability to calculate its NAV; impediments to trading; the inability of the Fund, the adviser, and other service providers to transact business; violations of applicable privacy and other laws; regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs; as well as the inadvertent release of confidential information.

Similar adverse consequences could result from cybersecurity breaches affecting issuers of securities in which the Fund invests; counterparties with which the Fund engages in transactions; governmental and other regulatory authorities; exchange and other financial market operators, banks, brokers, dealers, insurance companies, and other financial institutions (including financial intermediaries and service providers for the Fund's shareholders); and other parties. In addition, substantial costs may be incurred by these entities in order to prevent any cybersecurity breaches in the future.

MANAGEMENT

INVESTMENT ADVISER:

Mercator Investment Management, LLC (“Mercator” or the “adviser”), located at 144 Brookhollow Lane, Stamford, CT 06902, serves as investment adviser to the Fund. Subject to the oversight of the Board, Mercator is responsible for the overall management of the Fund’s investment portfolio. Mercator is a Connecticut limited liability company formed in 2018 to provide investment advisory services to mutual funds. As of December 31, 2020, Mercator had approximately \$34,939,454 in assets under management.

Pursuant to a management agreement between the Fund and Mercator, Mercator is entitled to receive, on a monthly basis, an annual advisory fee equivalent to 0.84% of the Fund’s average daily net assets. For the fiscal year ended December 31, 2020, the Fund paid advisory fees equal to 0.24%. Mercator has contractually agreed to reduce its fees and to reimburse expenses, at least through April 30, 2022 to ensure that total annual Fund operating expenses after fee waiver and reimbursement (exclusive of any front-end or contingent deferred loads, 12b-1 fees, taxes, leverage interest, borrowing interest, brokerage commissions, expenses incurred in connection with any merger or reorganization, dividend expense on securities sold short, acquired (underlying) fund fees and expenses or extraordinary expenses such as litigation) will not exceed 1.40% and 1.55% of the average daily net assets attributable to Institutional and Class A shares, respectively. These fee waivers and expense reimbursements are subject to possible recoupment from the Fund within three years after the date on which the waiver or reimbursement occurs, if such recoupment can be achieved within the lesser of the foregoing expense limits or the expense limits in place at the time of recoupment. This agreement may be terminated only by the Board, on 60 days’ written notice to Mercator. Fee waiver and reimbursement arrangements can decrease the Fund’s expenses and boost its performance. A discussion regarding the basis for the Board’s renewal of the management agreement will be available in the Fund’s semi-annual report dated June 30, 2021.

PORTFOLIO MANAGER:

Mr. Herve van Caloen as served as portfolio manager of Mercator since its creation in 2018. Prior to founding Mercator, he served as the Head of International Research and portfolio manager for Belpointe Asset Management, LLC from 2012 to 2018. He is a graduate of the European University in Antwerp, Belgium, has a Master of Business Administration from Claremont University and over thirty years of investment experience.

The Fund’s Statement of Additional Information provides additional information about the portfolio manager’s compensation structure, other accounts managed by the portfolio manager, and the portfolio manager’s ownership of shares of the Fund.

HOW SHARES ARE PRICED

The Fund's assets are generally valued at their market value using market quotations. The Fund may use pricing services to determine market value. If market prices are not available or, in the adviser's opinion, market prices do not reflect fair value, or if an event occurs after the close of trading on the domestic or foreign exchange or market on which the security is principally traded (but prior to the time the NAV is calculated) that materially affects fair value, the investment adviser will value the Fund's assets at their fair value according to policies approved by the Board. For example, if trading in a portfolio security is halted and does not resume before the Fund calculates its NAV, the adviser may need to price the security using the Fund's fair value pricing guidelines. Without a fair value price, short term traders could take advantage of the arbitrage opportunity and dilute the NAV of long term investors. Securities trading on overseas markets present time zone arbitrage opportunities when events effecting portfolio security values occur after the close of the overseas market, but prior to the close of the U.S. market. Fair valuation of the Fund's portfolio securities can serve to reduce arbitrage opportunities available to short term traders, but there is no assurance that fair value pricing policies will prevent dilution of the Fund's NAV by short term traders. Fair valuation involves subjective judgments and it is possible that the fair value determined for a security may differ materially from the value that could be realized upon the sale of the security. The Fund may invest in ETFs and other investment companies ("Underlying Funds"). The Fund's NAV is calculated based, in part, upon the market prices of the Underlying Funds in its portfolio, and the prospectuses of those companies explain the circumstances under which they will use fair value pricing and the effects of using fair value pricing. Because foreign securities trade on days when the Fund's shares are not priced, the value of securities held by the Fund can change on days when the Fund's shares cannot be purchased or redeemed.

HOW TO PURCHASE SHARES

Share Classes: This prospectus describes shares offered by the Fund.

Institutional Class Shares

Institutional Class shares of the Fund are sold at NAV without an initial sales charge and are not subject to 12b-1 distribution fees. This means that 100% of your initial investment is placed into shares of the Fund. Institutional Class shares are intended to be offered to institutional investors through select channels that are not available to all investors. However, the Fund or the adviser may admit investors at its discretion and waive any minimum investment requirement.

Class A Shares

Class A shares are sold at NAV without an initial sales charge. Class A shares are subject to a 0.25% 12b-1 distribution fee. Class A shares are intended to be offered to retail investors through financial intermediaries.

MINIMUM INVESTMENTS:

The minimum initial and subsequent investment for Institutional Class shares is \$1,000 and \$100, respectively, for all accounts. Class A shares have a minimum investment of \$500 and a subsequent investment of \$100. However, the Fund or the adviser may waive any minimum investment requirement at its discretion.

There is no minimum investment requirement when you are buying shares by reinvesting dividends and distributions from the Fund. Investment minimums may be higher or lower for investors purchasing shares through a brokerage firm or other financial institution. To the extent investments of individual investors are aggregated into an omnibus account established by an investment adviser, brokerage firm, retirement plan sponsor or other intermediary, the account minimums apply to the omnibus account, not to the account of the individual investor.

For accounts sold through brokerage firms and other intermediaries, it is the responsibility of the brokerage firm or intermediary to enforce compliance with investment minimums. When deciding which class of shares to purchase, you should consider your investment goals, present and future amounts you may invest in the Fund, and the length of time you intend to hold your shares. To help you make this determination as to which class of shares to buy, please refer to the back to the examples of the Fund's expenses over time in the Fees and Expenses of the Fund Section in this prospectus. You may also wish to consult with your financial adviser for advice with regard to which share class would be most appropriate for you.

OPENING AN ACCOUNT:

The Fund is a separate series of Collaborative Investment Series Trust (the "Trust"), and you may purchase shares directly from the Fund. You also may purchase shares through a brokerage firm or other intermediary that has contracted with the Trust to sell shares of the Fund. You may be charged a separate fee by the brokerage firm or other intermediary through whom you purchase shares.

If you are investing directly in the Fund for the first time, please call the Fund's transfer agent at 1-800-869-1679 to request a Shareholder Account Application. You will need to establish an account before investing. Be sure to sign up for all the account options that you plan to take advantage of. For example, if you would like to be able to redeem your shares by telephone, you should select this option on your Shareholder Account Application. Doing so when you open your account means that you will not need to complete additional paperwork later.

Your investment in the Fund should be intended as a long-term investment vehicle. The Fund is not designed to provide you with a means of speculating on the short-term fluctuations in the stock market. The Fund reserve the right to reject any purchase request that it regards as disruptive to the efficient management of the Fund, which includes investors with a history of excessive trading. The Fund also reserves the right to stop offering shares at any time.

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify, and record information that identifies each person who opens an account. This means that when you open an account, we will ask for your name, address, date of birth, and other information that will allow us to identify you. We also may ask for other identifying documents or information, and may take additional steps to verify your identity. We may not be able to open your account or complete a transaction for you until we are able to verify your identity.

If you have any questions regarding the Fund, please call 1-800-869-1679.

You may buy shares on any "business day." Business days are Monday through Friday, other than days the New York Stock Exchange ("NYSE") is closed, including the following holidays: New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving and Christmas Day.

Shares of the Funds are sold at NAV. The NAV generally is calculated as of the close of trading on the NYSE every day the NYSE is open. The NYSE normally closes at 4:00 p.m. Eastern Time ("ET"). The Fund's NAV is calculated by taking the total value of the Fund's assets, subtracting its liabilities, and then dividing by the total number of shares outstanding, rounded to the nearest cent.

If you are purchasing directly from the Trust, send the completed Shareholder Account Application and a check payable to the Fund in which you are investing to the following address:

Collaborative Investment Series Trust
c/o Mutual Shareholder Services, LLC
8000 Town Centre Drive, Suite 400
Broadview Heights, OH 44147-4031

Purchase orders received in “proper form” by the Fund’s transfer agent before the close of trading on the NYSE will be effective at the NAV next calculated after your order is received. On occasion, the NYSE closes before 4:00 p.m. ET. When that happens, purchase orders received after the NYSE closes will be effective the following business day.

To be in “proper form,” the purchase order must include:

- Fund name and account number;
- Account name(s) and address;
- The dollar amount or number of shares you wish to purchase.

The Fund may limit the amount of purchases and refuse to sell to any person.

Method of Payment. All purchases (both initial and subsequent) must be made in U.S. dollars and checks must be drawn on U.S. banks. Cash, credit cards and third party checks will not be accepted. Third party checks and checks drawn on a non-U.S. financial institution will not be accepted, even if payment may be effected through a U.S. financial institution. Checks made payable to any individual or company and endorsed to Collaborative Investment Series Trust or the Fund are considered third-party checks.

A \$20 fee will be charged against your account for any payment check returned to the transfer agent or for any incomplete electronic funds transfer, or for insufficient funds, stop payment, closed account or other reasons. If a check does not clear your bank or the Fund is unable to debit your pre-designated bank account on the day of purchase, the Fund reserves the right to cancel the purchase. If your purchase is canceled, you will be responsible for any losses or fees imposed by your bank and losses that may be incurred as a result of a decline in the value of the canceled purchase. The Fund (or the Fund’s agent) each have the authority to redeem shares in your account(s) to cover any losses due to fluctuations in share price. Any profit on such cancellation will accrue to the Fund.

If you choose to pay by wire, you must call the Fund’s transfer agent, at 1-800-869-1679 to set up your account, to obtain an account number, and obtain instructions on how to complete the wire transfer.

Wire orders will be accepted only on a day on which the Fund, custodian and transfer agent are open for business. A wire purchase will not be considered made until the wired money and the purchase order are received by the Fund. Any delays that may occur in wiring money, including delays that may occur in processing by the banks, are not the responsibility of the Fund or its transfer agent. The Fund presently does not charge a fee for the receipt of wired funds, but the Fund may charge shareholders for this service in the future.

AUTOMATIC INVESTMENT PLANS:

By completing the Automatic Investment Plan section of the account application, you may make automatic monthly investments (\$100 minimum per purchase) from your bank or savings account.

OTHER PURCHASE INFORMATION:

If your wire does not clear, you will be responsible for any loss incurred by the Fund. If you are already a shareholder, the Fund can redeem shares from any identically registered account in the Fund as reimbursement for any loss incurred. You may be prohibited or restricted from making future purchases in the Fund.

The Fund may authorize certain brokerage firms and other intermediaries (including its designated correspondents) to accept purchase and redemption orders on its behalf. The Fund is deemed to have received an order when the authorized person or designee receives the order, and the order is processed at the NAV next calculated thereafter. It is the responsibility of the brokerage firm or other intermediary to transmit orders promptly to the Funds' transfer agent.

HOW TO REDEEM SHARES**REDEEMING SHARES:**

You may redeem your shares on any business day. Redemption orders received in proper form by the Fund's transfer agent or by a brokerage firm or other intermediary selling Fund shares before 4:00 p.m. ET (or before the NYSE closes if the NYSE closes before 4:00 p.m. ET) will be processed at that day's NAV. Your brokerage firm or intermediary may have an earlier cut-off time.

"Proper form" means your request for redemption must:

- Include the Fund name and account number;
- Include the account name(s) and address;
- State the dollar amount or number of shares you wish to redeem; and
- Be signed by all registered share owner(s) in the exact name(s) and any special capacity in which they are registered.

The Fund may require that the signatures be guaranteed if the mailing address of the account has been changed within 30 days of the redemption request. The Fund also may require that signatures be guaranteed for redemptions of \$25,000 or more. Signature guarantees are for the protection of shareholders. You can obtain a signature guarantee from most banks and securities dealers, but not from a notary public. All documentation requiring a signature guarantee must utilize a New Technology Medallion stamp. For joint accounts, both signatures must be guaranteed. Please call the transfer agent at 1-800-869-1679 if you have questions regarding signature guarantees. At the discretion of the Fund, you may be required to furnish additional legal documents to insure proper authorization. The Fund will not make checks payable to any person other than the shareholder(s) of record.

Shares of the Fund may be redeemed by mail or telephone. You may receive redemption payments in the form of a check or federal wire transfer. A wire transfer fee of \$20 will be charged to defray custodial charges for redemptions paid by wire transfer. Any charges for wire redemptions will be deducted from your account by redemption of shares. If you redeem your shares through a brokerage firm or other intermediary, you may be charged a fee by that institution.

REDEEMING BY MAIL:

You may redeem any part of your account in the Fund by mail at no charge. Your request, in proper form, should be addressed to:

Collaborative Investment Series Trust
c/o Mutual Shareholder Services, LLC
8000 Town Centre Drive, Suite 400
Broadview Heights, OH 44147

TELEPHONE REDEMPTIONS:

You may redeem any part of your account in the Fund by calling the transfer agent at 1-800-869-1679. You must first complete the Optional Telephone Redemption and Exchange section of the investment application to institute this option. The Fund, the transfer agent and the custodian are not liable for following redemption instructions communicated by telephone to the extent that they reasonably believe the telephone instructions to be genuine. However, if they do not employ reasonable procedures to confirm that telephone instructions are genuine, they may be liable for any losses due to unauthorized or fraudulent instructions. Procedures employed may include recording telephone instructions and requiring a form of personal identification from the caller.

The Fund may terminate the telephone redemption procedures at any time. During periods of extreme market activity it is possible that shareholders may encounter some difficulty in telephoning the Fund, although neither the Fund nor the transfer agent has ever experienced difficulties in receiving and responding to telephone requests for redemptions or exchanges in a timely fashion. If you are unable to reach the Fund by telephone, you may request a redemption or exchange by mail.

REDEMPTIONS IN KIND:

The Fund reserves the right to honor requests, in regular and stressed market conditions, for redemption or repurchase orders made by a shareholder during any 90-day period by making payment in whole or in part in portfolio securities ("redemption in kind") on the amount of such a request that is large enough to affect operations (that is, on the amount of the request that is greater than the lesser of \$250,000 or 1% of the Fund's net assets at the beginning of the 90-day period). In-kind redemptions of Fund shares will be redeemed pro rata to the extent that doing so is reasonable and in the best interests of the Fund and its shareholders. The securities will be chosen by the Fund and valued using the same procedures as used in calculating the Fund's NAV. A shareholder may incur transaction expenses in converting these securities to cash.

ADDITIONAL REDEMPTION INFORMATION:

If you are not certain of the redemption requirements, please call the transfer agent at 1-800-869-1679. Redemptions specifying a certain date or share price cannot be accepted and will be returned. The Fund typically expects that it will take up to 5 days following the receipt of your redemption request to pay out redemption proceeds by check or electronic transfer. The Fund typically expects to pay redemptions from cash, cash equivalents, proceeds from the sale of fund shares, any lines of credit and then from the sale of portfolio securities. These redemption payment methods will be used in regular and stressed market conditions. You may be assessed a fee if the Fund incurs bank charges because you request that the Fund re-issue a redemption check. Also, when the NYSE is closed (or when trading is restricted) for any reason other than its customary weekend or holiday closing or under any emergency circumstances, as determined by the Securities and Exchange Commission ("SEC"), the Fund may suspend redemptions or postpone payment dates.

Low Balances: Because the Fund incurs certain fixed costs in maintaining shareholder accounts, the Fund may require that you redeem all of your shares in the Fund upon 30 days written notice if the value of your shares in the Fund is less than \$1,000 due to redemption, or such other minimum amount as the Fund may determine from time to time. You may increase the value of your shares in the Fund to the minimum amount within the 30-day period. All shares of the Fund also are subject to involuntary redemption if the Board of Trustees determines to liquidate the Fund. An involuntary redemption will create a capital gain or a capital loss, which may have tax consequences to you and about which you should consult your tax adviser.

FREQUENT PURCHASES AND REDEMPTIONS OF FUND SHARES

The Fund discourages and does not accommodate market timing. Frequent trading into and out of the Fund can harm all Fund shareholders by disrupting the Fund's investment strategies, increasing Fund expenses, decreasing tax efficiency and diluting the value of shares held by long-term shareholders. The Fund is designed for long-term investors and is not intended for market timing or other disruptive trading activities. Accordingly, the Fund's Board has approved policies that seek to curb these disruptive activities while recognizing that shareholders may have a legitimate need to adjust their Fund investments as their financial needs or circumstances change. The Fund discourages excessive short-term trading in Fund shares and does not intend to accommodate such trading activity by investors. The Fund considers excessive short-term trading to be any pattern of frequent purchases and redemptions of the Fund's shares by an investor or group of investors, acting in concert, that could interfere with the efficient management of the Fund's portfolio or result in increased brokerage and administrative costs. The Fund currently uses several methods to reduce the risk of market timing. These methods include:

- Committing staff to review, on a continuing basis, recent trading activity in order to identify trading activity that may be contrary to the Fund's market timing trading policy;
- Rejecting or limiting specific purchase requests; and
- Rejecting purchase requests from certain investors.

Though these methods involve judgments that are inherently subjective and involve some selectivity in their application, the Fund seeks to make judgments and applications that are consistent with the interests of the Fund's shareholders.

Based on the frequency of redemptions in your account, the adviser or transfer agent may in its sole discretion determine that your trading activity is detrimental to the Fund as described in the Fund's market timing trading policy and elect to reject or limit the amount, number, frequency or method for requesting future purchases or exchange purchases of the Fund's shares.

The Fund reserves the right to reject or restrict purchase requests for any reason, particularly when the shareholder's trading activity suggests that the shareholder may be engaged in market timing or other disruptive trading activities. Neither the Fund nor the adviser will be liable for any losses resulting from rejected purchase orders. The adviser may also bar an investor who has violated these policies (and the investor's financial advisor) from opening new accounts with the Fund.

Although the Fund attempts to limit disruptive trading activities, some investors use a variety of strategies to hide their identities and their trading practices. There can be no guarantee that the Fund will be able to identify or limit these activities. Omnibus account arrangements are common forms of holding shares of the Fund. While the Fund will encourage financial intermediaries to apply the Fund's market timing trading policy to their customers who invest indirectly in the Fund, the Fund is limited in its ability to monitor the trading activity or enforce the Fund's market timing trading policy with respect to customers of financial intermediaries. For example, should it occur, the Fund may not be able to detect market timing that may be facilitated by financial intermediaries or made difficult to identify in the omnibus accounts used by those intermediaries for aggregated purchases, exchanges and redemptions on behalf of all their customers. More specifically, unless the financial intermediaries have the ability to apply the Fund's market timing trading policy to their customers through such methods as implementing short-term trading limitations or restrictions and monitoring trading activity for what might be market timing, the Fund may not be able to determine whether trading by customers of financial intermediaries is contrary to the Fund's market timing trading policy. Brokers maintaining omnibus accounts with the Fund have agreed to provide shareholder transaction information to the extent known to the broker to the Fund upon request. If the Fund or its transfer agent or shareholder servicing agent suspects there is market timing activity in the account, the Fund will seek full cooperation from the service provider maintaining the account to identify the underlying participant. At the request of the adviser, the service providers may take immediate action to stop any further short-term trading by such participants.

The Fund and the adviser reserve the right to modify any redemption fee at any time. If there is a material change to the Fund's redemption fee, the Fund will notify you at least 60 days' prior to the effective date of the change.

DIVIDENDS, DISTRIBUTIONS AND TAXES

DIVIDENDS AND DISTRIBUTIONS:

The Fund typically distributes substantially all of its net investment income in the form of dividends and taxable capital gains to its shareholders. The Fund intends to distribute dividends and capital gains at least annually. These distributions are automatically reinvested in the Fund from which they are paid unless you request cash distributions on your application or through a written request to the Fund. Reinvested dividends and distributions receive the same tax treatment as those paid in cash. If you are interested in changing your election, you may call the Fund's transfer agent at 1-800-869-1679 or send a written notification to:

Collaborative Investment Series Trust
c/o Mutual Shareholder Services, LLC
8000 Town Centre Drive, Suite 400
Broadview Heights, OH 44147

TAXES

In general, selling or exchanging shares of the Fund and receiving distributions (whether reinvested or taken in cash) are taxable events. Depending on the purchase price and the sale price, you may have a gain or a loss on any shares sold. Any tax liabilities generated by your transactions or by receiving distributions are your responsibility. The Fund intends to distribute substantially all of its net investment income and net capital gains at least annually. Certain distributions may be deemed a return of capital. All distributions will be reinvested in shares of the Fund unless you elect to receive cash. Dividends from net investment income (including any excess of net short-term capital gain over net long-term capital loss) are taxable to investors as ordinary income, while distributions of net capital gain (the excess of net long-term capital gain over net short-term capital loss) are generally taxable as long-term capital gain, regardless of your holding period for the shares. Any dividends or capital gain distributions you receive from the Fund will normally be taxable to you when made, regardless of whether you reinvest dividends or capital gain distributions or receive them in cash. The Fund anticipates that distributions will be primarily taxed as ordinary income. You may want to avoid making a substantial investment when the Fund is about to make a taxable distribution because you would be responsible for any taxes on the distribution regardless of how long you have owned your shares. The Fund may produce capital gains even if they do not have income to distribute and performance has been poor.

Early each year, the Fund will mail to you a statement setting forth the federal income tax information for all distributions made during the previous year. If you do not provide your taxpayer identification number, your account will be subject to backup withholding.

The tax considerations described in this section do not apply to tax-deferred accounts or other non-taxable entities. Because each investor's tax circumstances are unique, please consult with your tax adviser about your investment.

DISTRIBUTION OF SHARES

DISTRIBUTOR:

Arbor Court Capital, LLC ("Arbor Court"), 8000 Towne Center Drive, Suite 400, Broadview Heights, Ohio 44147 is the distributor for the shares of the Fund. Arbor Court is a registered broker-dealer and member of the Financial Industry Regulatory Authority, Inc. Shares of the Fund are offered on a continuous basis.

DISTRIBUTION FEES:

The Trust, with respect to the Fund, has adopted the Trust's Master Distribution Plan (the "Plan"), pursuant to Rule 12b-1 of the 1940 Act, which allows the Fund to pay the Arbor Court an annual fee for distribution expenses of up to 0.25% of the Fund's average daily net assets attributable to Class A shares.

Arbor Court and other entities are paid pursuant to the Plan, for distribution and shareholder servicing provided and the expenses borne by Arbor Court and others in the distribution of the Fund's Class A shares. These expenses include the payment of commissions for sales of shares and incentive compensation to and expenses of dealers and others who engage in or support distribution of shares or who service shareholder accounts, including overhead and telephone expenses, printing and distribution of prospectuses and shareholder reports used in connection with the offering of the Fund's shares to other than current shareholders; and preparation, printing and distribution of sales literature and advertising materials. In addition, Arbor Court or other entities may utilize fees paid pursuant to the Plan to compensate dealer or other entities for their opportunity costs in advancing such amounts, which compensation would be in the form of a carrying charge on any un-reimbursed expenses.

You should be aware that if you hold shares for a substantial period of time, you may indirectly pay more than the economic equivalent of the maximum front-end sales charge allowed by FINRA due to the reoccurring nature of distribution fees.

HOUSEHOLDING:

To reduce expenses, we mail only one copy of the prospectus and each annual and semi-annual report to those addresses shared by two or more accounts. If you wish to receive individual copies of these documents, please call the Fund at 1-800-869-1679 on days the Fund is open for business or contact your financial institution. We will begin sending you individual copies thirty days after receiving your request.

FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the Fund's financial performance for the period of the Fund's operations. The total returns in the table represent the rate that an investor would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). This information for the Fund has been derived from the financial statements audited by Cohen & Company, Ltd., the Fund's independent registered public accounting firm, whose report, along with the Fund's financial statements, are included in the Fund's December 31, 2020 annual report. The Fund's former auditor audited the Fund's financial statements for the period ended December 30, 2019 and prior.

Institutional Class Shares

	Year Ended	Year Ended	Period Ended
	12/31/2020	12/31/2019	12/31/2018 (c)
