MERCATOR INTERNATIONAL OPPORTUNITY FUND

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2022 (UNAUDITED)

1. ORGANIZATION

The Mercator International Opportunity Fund (the “Fund”) is a diversified series of the Collaborative Investment Series Trust (the “Trust”). The Trust is a Delaware statutory trust and is registered as an open-end investment company, under the Investment Company Act of 1940, as amended (the “1940 Act”). The Trust is authorized to issue an unlimited number of shares of beneficial interest of separate series without par value. The Fund, along with additional series are currently authorized by the Board of Trustees (the “Board” or “Trustees”). The Fund commenced investment operations on April 2, 2018. The Board has authorized two classes of shares: Institutional Class and Class A shares. Each class is subject to different expenses. Each class differs as to distribution fees, such that Institutional Class shares have no distribution fees but there is a higher minimum initial investment required. See Note 4 to the financial statements for further information regarding the fees for each Class of shares offered by the Fund.

The Fund’s investment objective is long-term growth of capital.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the Fund’s significant accounting policies. These policies are in conformity with accounting principles generally accepted in the United States of America (“GAAP”).

As an investment company, as defined in Financial Accounting Standards Board (“FASB”) Accounting Standards Update (“ASU”) 2013-08, the Fund follows accounting and reporting guidance under FASB Accounting Standards Codification Topic 946, “Financial Services – Investment Companies.”

SECURITY VALUATIONS: All investments in securities are recorded at their estimated fair value, as described in Note 3.

SECURITY TRANSACTION TIMING: For financial reporting purposes, investment transactions are accounted for on the trade date. Dividend income and distributions to shareholders are recognized on the ex-dividend date. Non-cash dividend income is recorded at fair market value of the securities received. Interest income is recognized on an accrual basis. The Fund uses the specific identification method in computing gain or loss on sale of investment securities. Discounts and premiums on securities purchased are accreted or amortized over the life of the respective securities using the effective interest method. Withholding taxes on foreign dividends have been provided for in accordance with the Fund’s understanding of the appropriate country’s rules and tax rates.

FEDERAL INCOME TAXES: The Fund makes no provision for federal income or excise tax. The Fund intends to qualify each year as a regulated investment company (“RIC”) under subchapter M of the Internal Revenue Code of 1986, as amended, by complying with the requirements applicable to RICs and by distributing substantially all of its taxable income. The Fund also intends to distribute sufficient net investment income and net capital gains, if any, so that it will not be subject to excise tax on

MERCATOR INTERNATIONAL OPPORTUNITY FUND

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2022 (UNAUDITED)

undistributed income and gains. If the required amount of net investment income or gains is not distributed, the Fund could incur a tax expense. Therefore, no federal income tax or excise provision is required.

The Fund recognizes the tax benefits of uncertain tax positions only when the position is more likely than not to be sustained, assuming examination by tax authorities. Management has analyzed the Fund's tax positions and concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years (2019-2021) or expected to be taken in the Fund's 2022 tax returns. The Fund identifies its major tax jurisdiction as U.S. federal, however the Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next 12 months.

The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations. During the six months ended June 30, 2022, the Fund did not incur any interest or penalties.

DISTRIBUTIONS TO SHAREHOLDERS: The Fund typically distributes substantially all of its net investment income and realized gains in the form of dividends and taxable capital gains to its shareholders. The Fund intends to distribute dividends and capital gains at least annually. Distributions to shareholders, which are determined in accordance with income tax regulations, are recorded on the ex-dividend date. The treatment for financial reporting purposes of distributions made to shareholders during the year from net investment income or net realized capital gains may differ from their ultimate treatment for federal income taxes purposes. These differences are caused primarily by differences in the timing of the recognition of certain components of income, expense or realized capital gain for federal income tax purposes. Where such differences are permanent in nature, they are reclassified in the components of the net assets based on their ultimate characterization for federal income tax purposes. Any such reclassifications will have no effect on net assets, results of operations or NAV per share of the Fund.

FOREIGN CURRENCY: Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions. The Fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments. Reported net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the fair values of assets and liabilities, other than investments in securities at fiscal period end, resulting from changes in exchange rates.

MERCATOR INTERNATIONAL OPPORTUNITY FUND

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2022 (UNAUDITED)

FOREIGN TAXES: The Fund may be subject to foreign taxes related to foreign income received (a portion of which may be reclaimable), capital gains on the sale of securities and certain foreign currency transactions. All foreign taxes are recorded in accordance with the applicable regulations and rates that exist in the foreign jurisdictions in which the Fund invests.

USE OF ESTIMATES: The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

SHARE VALUATION: The Fund's NAV is calculated once daily, at the close of regular trading hours on the New York Stock Exchange (the "NYSE") (generally 4:00 p.m. Eastern time) on each day the NYSE is open. The net assets are determined by totaling the value of all portfolio securities, cash and other assets held by the Fund, and subtracting from that total all liabilities, including accrued expenses. The total net assets are divided by the total number of shares outstanding to determine the NAV of each share.

EXPENSES: Expenses incurred by the Trust that do not relate to a specific fund of the Trust will be allocated to the individual funds based on each fund's relative net assets or another appropriate basis (as determined by the Trustees).

SHARE CLASS ACCOUNTING: Investment income, common expenses and realized/unrealized gains (losses) on investments are allocated to the two classes of shares of the Fund on the basis of the daily net assets of each class. Fees relating to a specific class are charged directly to that share class.

3. SECURITY VALUATIONS

Processes and Structure

The Board has adopted guidelines for valuing securities including in circumstances in which market quotes are not readily available and has delegated to the Fund's adviser, Mercator Investment Management, LLC (the "Adviser"), the responsibility for determining fair value prices, subject to oversight by the Board.

Fair Value Pricing Policy

If market quotations are not readily available, the security will be valued at fair value (the amount which the owner might reasonably expect to receive for the security upon its current sale) as determined in good faith by the Adviser ("Fair Value Pricing"), subject to review by the Board. The Adviser must use reasonable diligence in determining whether market quotations are readily available. If, for example, the Adviser determines that one source of market value is unreliable, the Adviser must diligently seek market quotations from other sources, such as other brokers or pricing services, before concluding that

MERCATOR INTERNATIONAL OPPORTUNITY FUND

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2022 (UNAUDITED)

market quotations are not available. Fair Value Pricing is not permitted when market quotations are readily available.

Fixed income securities generally are valued using market quotations provided by a pricing service. If the Adviser decides that a price provided by the pricing service does not accurately reflect the fair market value of the securities, when prices are not readily available from a pricing service, or when restricted or illiquid securities are being valued, securities are valued at fair value as determined in good faith by the Adviser, in conformity with guidelines adopted by and subject to review of the Board. Short term investments in fixed income securities with maturities of less than 60 days when acquired, or which subsequently are within 60 days of maturity, may be valued by using the amortized cost method of valuation, when the Board has determined that it will represent fair value.

Fair Value Measurements

The Fund values its investments at fair value. GAAP defines fair value as the price that the Fund would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date and also establishes a framework for measuring fair value, and a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability. The three-tier hierarchy seeks to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the Fund's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

Equity securities (domestic and foreign common stocks). Securities traded on a national securities exchange (or reported on the NASDAQ national market) are stated at the last reported sales price on the day of valuation. To the extent these securities are actively traded, and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy. Prices denominated in foreign currencies are converted to U.S. dollar equivalents at the current exchange rate. Certain foreign securities may be fair valued using a pricing service that considers the correlation of the trading patterns of the foreign security to the intraday trading in the U.S. markets for investments such as American Depositary Receipts, financial futures, exchange traded funds, and the movement of the certain indexes of securities based on a statistical analysis of the historical relationship and that are categorized in Level 2. Other equities traded on inactive markets or valued by reference to similar instruments are also categorized in Level 2.

Hierarchy of Fair Value Inputs

The Fund utilizes various methods to measure the fair value of most of their investments on a recurring basis. GAAP establishes a hierarchy that prioritizes inputs to valuation techniques used to measure fair value. The three levels of inputs are as follows:

- Level 1. Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.
- Level 2. Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates, and similar data.
- Level 3. Unobservable inputs for the asset or liability to the extent that relevant observable inputs are not available, representing the company's own assumptions about the assumptions that a market participant would use in valuing the asset or liability, and that would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in the security.

The following table presents information about the Fund's investments measured at fair value as of June 30, 2022, by major security type:

<i>Categories</i>	Financial Instruments—Assets			
	<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>	<i>Fair Value</i>

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2022 (UNAUDITED)

During the six months ended June 30, 2022, there were no transfers between Level 3 in the Fund. The Fund did not hold any Level 3 securities during the period presented.

4. RELATED PARTY TRANSACTIONS

INVESTMENT ADVISER: Under the terms of a management agreement between the Trust and the Adviser, with respect to the Fund (the "Agreement"), the Adviser, subject to the oversight of the Board, provides or arranges to be provided to the Fund such investment advice as its deems advisable and will furnish or arrange to be furnished a continuous investment program for the Fund consistent with the Fund's investment objective and policies. Under the advisory agreement, the Fund pays Adviser an annual advisory fee of 0.84% of the Fund's daily average net assets. The advisory agreement remained in effect for an initial two-year period and may be renewed by the Board annually thereafter. For the six months ended June 30, 2022, the Adviser earned \$140,541 in advisory fees from the Fund.

The Adviser contractually agreed to reduce its fees and to reimburse expenses, at least through April 30, 2023, to ensure that total annual Fund operating expenses after fee waiver and reimbursement (exclusive of any front-end or contingent deferred loads, taxes, leverage interest, borrowing interest, brokerage commissions, expenses incurred in connection with any merger or reorganization, dividend expense on securities sold short, acquired (underlying) fund fees and expenses or extraordinary expenses such as litigation) will not exceed 1.40% and 1.55% of the average daily net assets attributable to the Institutional Class and Class A shares, respectively. These fee waivers and expense reimbursements are subject to possible recoupment from the Fund within three years of the date on which the waiver or reimbursement occurs, if such recoupment can be achieved within the lesser of the foregoing expense limits or the expense limits in place at the time of recoupment.

For the six months ended June 30, 2022, the Adviser waived advisory fees of \$77,907. As of December 31, 2021, the unreimbursed amounts paid or waived by the Adviser on behalf of the Fund is \$343,606, subject to future recoupment as follows:

<u>Recoverable Through</u>	<u>Amount Recoverable</u>
December 31, 2022	\$126,684
December 31, 2023	\$106,046
December 31, 2024	\$110,876

As of June 30, 2022, the Fund owed the Adviser \$3,360.

On April 18, 2019, the Adviser obtained a Line of Credit from CFS in the amount of \$200,000. The Line of Credit had a Maturity Date of the earlier of February 1, 2021 or the date the Adviser ceases to conduct business with CFS. On March 22, 2021, the Maturity Date of the Line of Credit was extended to the earlier of February 1, 2023 or the date the Adviser ceases to conduct business with CFS. Effective September 9, 2021, the Line of Credit was assigned to Belpointe Services, LLC., an affiliate of CFS. As of June 30, 2022, the unpaid balance owed by the Adviser to Belpointe is \$52,891.

ADMINISTRATOR AND COMPLIANCE SERVICES: Effective June 1, 2019, the Trust, on behalf of the Fund, entered into an Administration and Compliance Agreement with Collaborative Fund Services, LLC (“CFS”). CFS serves as the Trust’s Administrator and provides compliance services to the Fund. CFS is paid an annual fee of 0.35% of the Fund’s average daily net assets. Greg Skidmore is the President of CFS, and is also an Interested Trustee. For the six months ended June 30, 2022, CFS earned \$53,973 for these services. As of June 30, 2022, the Fund owed CFS \$5,839.

TRANSFER AGENT AND FUND ACCOUNTANT: Mutual Shareholder Services, LLC (“MSS”), the Fund’s transfer agent and fund accountant, receives an annual fee from the Fund of \$11.50 per shareholder for transfer agency services. For its services as fund accountant, MSS receives an annual fee from the Fund based on the average net assets of the Fund.

DISTRIBUTION (12B-1) PLAN AND SHAREHOLDER SERVICING FEES: The Trust, with respect to the Fund, adopted a distribution plan in accordance with Rule 12b-1 (“Distribution Plan”) under the 1940 Act for Class A shares with Arbor Court Capital, LLC (“Distributor”). Pursuant to the Distribution Plan, the Fund compensates the Distributor for services rendered and expenses borne in connection with activities primarily intended to result in the sale of the Fund’s Class A shares. The Distribution Plan provides that the Fund may pay annually up to 0.25% of the average daily net assets of the Fund’s Class A. The Distributor is an affiliated entity to the Trust’s transfer agent and fund accountant. The Fund accrued no fees for the six months ended June 30, 2022. The Fund owes no Distribution fees to the Distributor at June 30, 2022.

Shareholder servicing fees may be in addition to the Rule 12b-1 fees and any sales charges. These payments are generally made to financial intermediaries that provide shareholder or administrative services, or marketing support. Certain administrative fees, such as sub-transfer agency or sub-administrative fees, may be payable by the Fund. Marketing support may include access to sales meetings, sales representatives and financial intermediary management representatives, inclusion of the Fund on a sales list, including a preferred or select sales list, or other sales programs.

5. INVESTMENT TRANSACTIONS

Investment transactions, excluding short-term investments, for the six months ended June 30, 2022, were as follows:

7. COMMITMENTS AND CONTINGENCIES

In the normal course of business, the Fund may enter into contracts that may contain a variety of representations and warranties and provide general indemnifications. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated; however, management considers the risk of loss from such claims to be remote.

8. TAX MATTERS

For federal income tax purposes, the cost of investments owned at June 30, 2022 is \$28,526,394. As of June 30, 2022, the gross unrealized appreciation on a tax basis totaled \$2,189,611 and the gross unrealized depreciation totaled \$9,340,170 for a net unrealized depreciation of \$7,150,559.

The difference between the book cost and tax cost of investments of the Fund represents disallowed wash sales for tax purposes.

As of December 31, 2021, the components of distributable earnings on a tax basis were as follows:

Unrealized appreciation (depreciation)	\$ 8,186,436
Undistributed capital gain	4,880
Distributable Earnings	\$ 8,191,316

MERCATOR INTERNATIONAL OPPORTUNITY FUND

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2022 (UNAUDITED)

The Fund's capital loss carryforward, post-October losses and post December losses are determined only at the end of each fiscal year. The Fund had no capital loss carryforward, post-October losses, or late year losses for the year ended December 31, 2021.

No distributions were paid for the six months ended June 30, 2022.

For the year ended December 31, 2021, the Fund paid an ordinary distribution of \$403,664, and a long-term capital gain distribution of \$3,031,179.

9. BENEFICIAL OWNERSHIP

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a fund creates a presumption of control of the Fund under Section 2(a)(9) of the 1940 Act. As of June 30, 2022, TD Ameritrade, Inc. held in omnibus accounts for the benefit of others approximately 75% of the voting securities of the Fund and may be deemed to control the Fund.

10. MARKET RISK

Overall market risks may also affect the value of the Fund. Factors such as domestic economic growth and market conditions, interest rate levels and political events affect the securities markets. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issue, recessions and depressions, or other events could have a significant impact on the Fund and its investments and may impair market liquidity, thereby increasing liquidity risk. The Fund could lose money over short periods due to short-term market movements and over longer periods during more prolonged market downturns. During a general market downturn, multiple asset classes may be negatively affected. Changes in market conditions and interest rates can have the same impact on all types of securities and instruments.

An outbreak of infectious respiratory illness caused by a novel coronavirus known as COVID-19 was first detected in China in December 2019 and has now been detected globally. This coronavirus has resulted in travel restrictions, closed international borders, enhanced health screenings at ports of entry and elsewhere, disruption of and delays in healthcare service preparation and delivery, prolonged quarantines, cancellations, supply chain disruptions, and lower consumer demand, as well as general concern and uncertainty. The impact of COVID-19, and other infectious illness outbreaks that may arise in the future, could adversely affect the economies of many nations or the entire global economy, individual issuers and capital markets in ways that cannot necessarily be foreseen. In addition, the impact of infectious illnesses in emerging market countries may be greater due to generally less established healthcare systems. Public health crises caused by the COVID-19 outbreak may exacerbate other pre-existing political, social and economic risks in certain countries or globally. The duration of the COVID-19 outbreak and its effects cannot be determined with certainty.

Expense Example

As a shareholder of the Fund, you incur ongoing costs which typically consist of management fees and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The Example is based on an investment of \$1,000 invested at the beginning of the period and held during the entire six-month period, January 1, 2022 through June 30, 2022.

Actual Expenses

The actual line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During the Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The hypothetical line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in this Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

PORTFOLIO HOLDINGS

The Fund files its complete schedule of investments with the Securities and Exchange Commission (“SEC”) for the first and third quarters of each fiscal year on Form N-PORT. The Form N-PORT filing must be made within 60 days of the end of the quarter. The Fund’s Form N-PORT is available on the SEC’s web site at <http://www.sec.gov>. You may also obtain copies by calling the Fund at 1-800-869-1679, free of charge.

PROXY VOTING

The Fund’s proxy voting policies, procedures and voting records relating to common stock securities in the Fund’s investment portfolio, for the most recent twelve month period ended June 30, are available without charge, upon request, by calling the Fund’s toll-free telephone number 1-800-869-1679. The Fund will send this information within three business days of receipt of the request, by first class mail or other means designed to ensure prompt delivery. The Fund’s proxy information is also available on the SEC’s website at <http://www.sec.gov>.

LIQUIDITY RISK MANAGEMENT PROGRAM

The Fund has adopted and implemented a written liquidity risk management program as required by Rule 22e-4 (the “Liquidity Rule”) under the 1940 Act. The program is reasonably designed to assess and manage the Fund’s liquidity risk, taking into consideration, among other factors, the Fund’s investment strategy and the liquidity of its portfolio investments during normal and reasonably foreseeable stressed conditions; its short and long-term cash flow projections; and its cash holdings and access to other funding sources.

During the fiscal six months ended June 30, 2022, the Trust’s Liquidity Risk Management Program Committee (the “Committee”) reviewed the Fund’s investments and determined that the Fund held adequate levels of cash and highly liquid investments to meet shareholder redemption activities in accordance with applicable requirements. Accordingly, the Committee concluded that (i) the Fund’s liquidity risk management program is reasonably designed to prevent violations of the Liquidity Rule and (ii) the Fund’s liquidity risk management program has been effectively implemented.

RENEWAL ADVISORY AGREEMENT

Nature, Extent and Quality of Services. The Trustees noted that Mercator Investment Management, LLC (MIM) was an SEC registered investment adviser with \$61 million in assets under management as of November 30, 2021. The Board reviewed the background information of the key personnel responsible for the Fund. They noted that the adviser added Mr. Twomey as head of marketing, Ms. Tirado as an analyst and Mr. De Angelis as a compliance consultant. They discussed each person’s education and financial industry experience. The Trustees further noted that there were no material compliance issues reported during the previous two years and that the adviser was not subject to any on-going litigation or examinations. The Trustees concluded that MIM had provided high quality service to the Fund and its shareholders.

MERCATOR INTERNATIONAL OPPORTUNITY FUND

ADDITIONAL INFORMATION

JUNE 30, 2022 (UNAUDITED)

Performance. The Board considered the performance of the Fund and noted that it returned 24.23%, 31.57% and 19.84% over the 1-year, 3-year and since inception periods, respectively. They observed that the Fund outperformed the peer group and Morningstar category averages and the index for all periods presented. The Trustees acknowledged the Fund's strong track record of performance and concluded that the Fund's performance was acceptable.

Fees and Expenses. The Trustees noted that the adviser's annual fee with respect to the Fund was 0.84%, slightly lower than the peer group average, but within the range of its peer group. They observed that the net expense ratio of the Fund was 1.58%, which was higher than the peer group average and just slightly lower than the peer group high. The Trustees acknowledged that MIM attributed the Fund's higher net expense ratio to the size of the Fund and noted that MIM believed that the Fund's expenses would become more aligned with its peer group as assets increase. They also acknowledged MIM's intention to renew the expense limitation agreement at the same levels. The Trustees concluded that the advisory fee was not unreasonable.

Profitability. The Trustees reviewed the profitability analysis provided by the adviser. They noted that the adviser had realized a reasonable profit in connection with the Fund. The Trustees acknowledged the adviser's assertion that the profits earned were not excessive given the quality of services provided and the Fund's performance. The Trustees determined that the profitability with regard to the Fund was not unreasonable.

Economies of Scale. The Trustees considered whether economies of scale would be realized in connection with the advisory services provided to the Funds. The Trustees agreed that based on the Fund's projected asset size and profit level, the absence of breakpoints was acceptable at this time. The Board discussed MIM's position on breakpoints and agreed to continue to monitor the Fund's asset levels and revisit the matter as each Fund continues to grow.

Conclusion. Having requested and received such information from MIM as the Board believed to be reasonably necessary to evaluate the terms of the investment advisory agreement, and as assisted by the advice of independent counsel, the Board determined that approval of the renewal of the advisory agreement was in the best interests of the Fund and its shareholders.
